

**By-Pass Drum Humidifier
HE120A**

By-Pass Drum Whole-House Humidifier

HE120A

INCREASING COMFORT WHILE PROTECTING THE HOME

KEY FEATURES

- Up to 17 gallons per day; for homes from 2,575 to 4,000 sq ft.
- Utilizes home's HVAC system for humidity distribution
- Can be installed in furnace room without a drain
- Minimal water and electricity needed for operation
- Easily installed directly to HVAC system for whole-house humidification
- Less maintenance and cleaning than portable units
- Replenishes moisture throughout the home to make it more comfortable
- Protects wood floors and furnishings from drying and cracking
- Reduces static electricity
- Saves money and energy – because the improved humidity makes for a more comfortable home, the thermostat can be turned down a few degrees
- Installation kit included
